

Downloading and Installing Stat Plus: Mac LE

Analysis Package for Excel: Mac 2011

1. Copy the following URL into a web browser:
<http://www.analystsoft.com/en/products/statplasmacle/download.phtml>
2. Click the **Download** link. This will automatically start the download of "*statplasmacle.zip*" into your downloads folder.
3. Open the *statplasmacle* folder from the download window and double-click on *SPM_580_LE.dmg*, which will open the installation window.
4. Click and drag the **StatPlus LE** icon onto the **Applications** icon.
5. Now **StatPlus LE** will appear in your Applications folder.
6. Click on the icon to open the program. Excel will open automatically if it is not already, but **StatPlus LE** does not have its own window. The program is navigated through the menu bar at the top of the screen:
